GENERAL TERMS OF SALE

(should include some or all of the following items, at the discretion of both parties):

Description of queen(s): The Vendor undertakes to deliver a healthy, disease-free queen(s) at time of purchase. The age of the queen(s) is estimated at 6 months, 12 months, 18 months, 24 months (strike out not applicable). The queen(s) has been successfully mated as far as the vendor can ascertain, but the vendor accepts no liability for any queen failure after possession date, or unless otherwise stated in the agreement.

PURCHASER:

Inspection/Site Visit: The purchaser may visit the vendor's breeding operation within 30 days prior to the possession date at an agreed upon day and time to inspect the mating nucs and queen rearing locations. (It is recommended that if the purchaser is not an experienced beekeeper, that the purchaser engage an experienced beekeeper to accompany the beekeeper on the site visit).

Collection of the Queen(s): The Purchaser will at his own expense collect or have the queen(s) collected through an approved and reliable carrier from the Vendor. If the queen(s) is being mailed, the vendor will add the shipping cost onto the final queen price.

Other responsibilities: (Any additional responsibilities of the purchaser should be clearly outlined here. For example, the purchaser must have completed some type of "queen care" education module or course prior to the possession date.)

Risks and liability: (The expectations of the purchaser in the case of an adverse occurrence must be clearly outlined here. For example, what action, if any, does the purchaser take in the case of weather impacting the possession date or poorly mated queen after possession).

VENDOR:

The vendor may visit and inspect the purchaser's beekeeping operation prior to the possession date at an agreed upon day and time to ensure proper management is in place to receive and adequately introduce the queen(s) to a colony.

Other responsibilities: (Any additional responsibilities of the vendor should be clearly outlined here. For example, the vendor must have specific safeguards in place to mitigate poor weather outcomes and the impact on queen mating and the possession date.)

Risks and liability: (The expectations of the vendor in the case of an adverse occurrence should be clearly outlined here. For example, what action, if any, does the vendor take in the case of weather impacting the possession date or poorly mated queen after possession).

Default: If either the vendor or the purchaser is unable to fulfill the contract, the details of what next steps must be taken are clearly outlined here.
